

**Regeneration:**  
Profits are invested in projects & initiatives that are working to restore socio-ecological systems.

**Living Local Economies:**  
Your purchase directly supports artisans & craftspeople who have committed to ethical sourcing of their materials.

**Transparency:**  
Tracking & reporting our socio-ecological impact ensures accountability to our mission.

**Native Forest Restoration**  
Working with community organizations restoring native ecosystems at Waikeakua pond in Mānoa valley. (image: Waikeakua site)

**Supporting Local Artisans**  
Artisans make products from local and responsibly sourced materials such as invasive trees. (image: Pahiki Eco-Caskets)

**Tracking Regeneration**  
NRDS helps us to measure our impact on socio-ecological systems. Our primary metrics for success are trees planted and dollars directly invested into communities. (image: NRDS ecological data)

Mauka Marketplace is the world's first global e-commerce marketplace optimized to direct its profits towards bioregional projects and initiatives working to restore and regenerate the damage that has been done to our planetary life support systems.

Amazon revolutionized the way we move goods & services, but continues to perpetuate a global paradigm of resource extraction and exploitation of people.

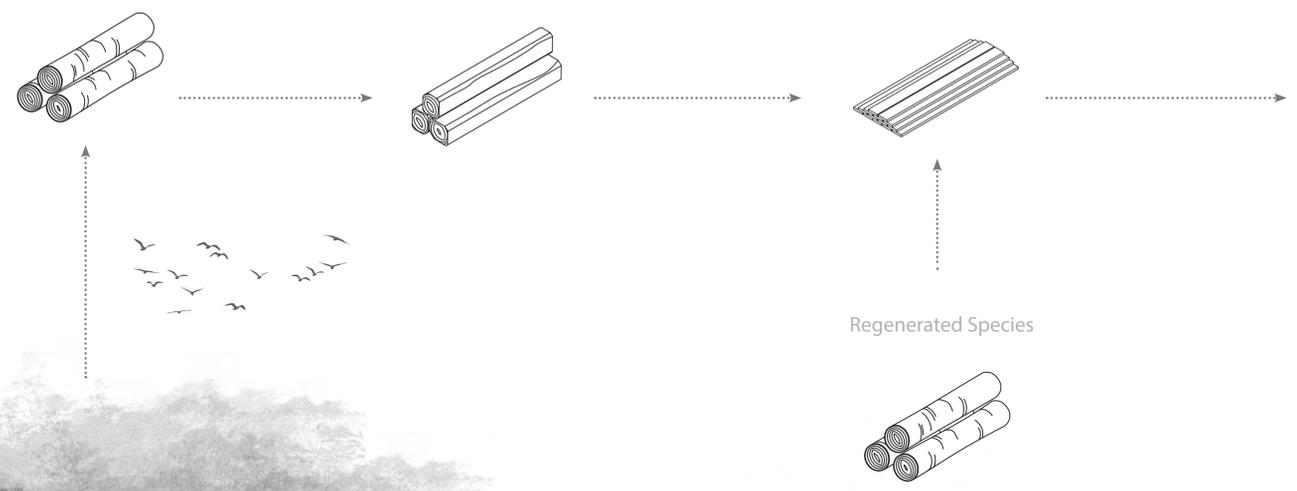

Mauka Marketplace will direct global revenues into local artisans' pockets, and invest profits into bioregional projects working towards social-ecological restoration at scale.

We can grow a global marketplace that is explicitly designed to create economic drivers for ecosystem restoration.

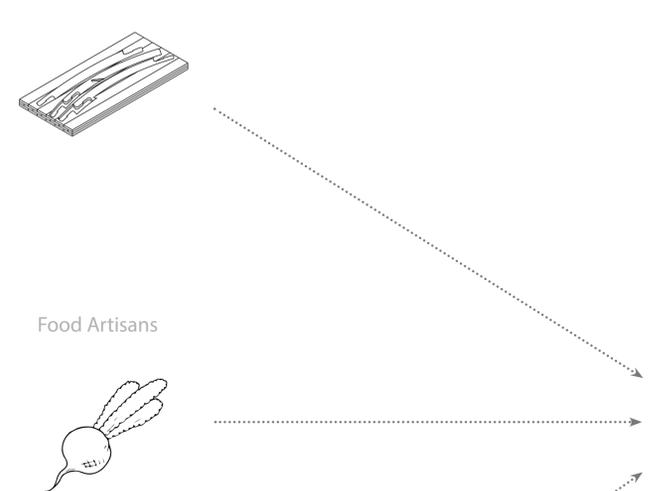

## Invasive Species Utilization

Albizia, Mangrove, etc

## Renewable Goods

Makers & Innovators

## Ecosystem Disrupted

## Ecosystem Restored

## The Marketplace

	<b>Create</b> Crafts, furniture and unique goods curated to support local artisans and the conscious consumer.	
	<b>Dwell</b> Experience waking up in a hand crafted wood structure rooted in sustainable practices.	
	<b>Nourish</b> Support local farmers and ecosystem restoration while giving your body the nutrients it needs.	
	<b>Live</b> Embrace native, natural products to soothe all aspects of the mind, body and soul.	
	<b>Surf</b> Catch the next swell on a board that uses no toxic materials and is made with 100% invasive wood.
